Title:

- Family Involvement Training: Key Points will influence directly or indirectly student outcomes

Purpose of Study:

- The purpose of this study is to examine whether family involvement makes a difference in their child's achievement in school. Does family involvement make a difference?

Additional Considerations:

- Is there a correlation between family involvement and student achievement?
- Will a parenting training program assist future and current school administrators with specific information that will provide parents with strategies to help them to be involved in their children's education?

Preferred Methodology:

- Quantitative with intervention
 - Construct a 50-item survey
